CHARLEROI, WASHINGTON, CO., WEDNESDAY, FEBRUARY 19, 1919

TWO CENTS

## NEW ALL-STEEL TOWBOAT HAS MADE A WONDERFUL RECORD

Marks great advance in Construction of Boats for Local Service

### EVERY MODERN CONVENIENCE

The new sternwheel towboat, "C. W. Clingerman," named in honor of an official of the Carnegie Steel Company, and recently placed in commission on the Monongahela river, has proven herself to be very much of a steamboat. Since entering the trade on the 23rd of November, 1918, at 12 o'clock noon, the boat has been in constant commission, and to use an expression of steamboatmen, has not "missed a scrape" in all that time.

As this steamer is quite an advance in marine construction its many features are worthy of note, which we are able to mention through the courtesy of Clark W. Sheets, mate of this steamer and himself one of the oldest and best boatmen on the river.

The Clingerman is an all-steel boat, and was built by the James Rees' Sons Co., of Pittsburgh. It is 178 feet in length, 28 feet beam and five feet depth of hold. The engines are of the condensing type, with high and low pressure cylinders, of 14 and 28 inches in diameter and seven feet stroke. It is equipped with four two-flu boilers, which are allowed a steam pressure of 210 pounds of steam in a 28-inch vacuum working 200 pounds under way, which drives the big wheel 28 revolutions per minute.

The cabin of the boat is constructed of fireproof material and is fitted with every modern convenience for the comfort of the crew. Hot and cold water, tub and shower baths, an ice and refrigerating plant, as well as sitting rooms and mess halls both fore and aft give the steamer such a homelike air that makes it very popular with the crew. The state-rooms are provided with the finest of bedding, in fact all of the equipment being in line with the well known policy of the Carnegie company to provide the best of everything for their employees.

The boat carries a crew of 17 people, and when placed in commission was under command of Capt. A. O. Ackard, recently appointed Transportation Manager for the Company. Capt. Frank Crawford is now in command, he having recently been appointed assistant to Capt. Ackard. Both of them however will do some additional star gazing until the four new all-steel boats now under way at Ambridge are put in commission. Clark Sheets is mate of the boat, George Ehringer chief engineer, W. E. Herd assistant, and Capt. Cal Blazier pilot.

That the Clingerman is doing great work is shown by the following record from her "log book," which shows that the boat made the run in the third pool, 18 miles long, up stream, with six steel barges, each drawing 20 inches of water, in two hours and 20 minutes. On a down trip the run was made in the third

### ASK COMMISSIONERS FOR IMPROVED ROADS

Delegations from the Canonsburg and West Alexander sections of the county were before the county commissioners on Monday, asking for road improvements. The meeting was held in the public meeting room of the court house and the claims of the two delegations were gone over. The commissioners suggested that it be ascertained what the state would be willing to do in the way of assistance, after which the county would determine what its share should be.

## PREMIER CLEMENCEAU SHOT BY A FANATIC

A report reached Charleroi this afternoon, about one o'clock, that Premier Clemenceau of France had been shot. No additional details accompanied the message.

Clemenceau is one of the majestic figures of France. Although over 76 years of age, and known as "The Tiger," he has conducted the affairs of his office not only during the war, but since the armistice was signed in such a way as to compel the admiration of the world. He was chosen President of the peace conference now in session at Versailles, and is one of the dominating figures of that congress.

### SERVICES WILL CONTINUE ALL WEEK

The revival services at the First M. E. church will be continued all this week and Sabbath morning and evening. The interest in the meeting last night was intense. There will be special music each evening. Last night the pastor spoke on the theme, "What will you do with Jesus?" Tonight he will take for his subject, "The Making of a Watchman."

#### Edmund Joseph Fontane.

Edmund Joseph, son of Mr. and Mrs. William Fontane, died at the home of his parents, 119 McKee avenue, Monessen, February 18, aged 8 years. Funeral Thursday afternoon at 2 o'clock in charge of Rev. John R. Burson, interment in Belle Vernon cemetery.

pool, towing six steel barges carrying 150,000 bushels of coal, without ringing a bell, thus showing the fine steering qualities of the steamer. When the boat is thoroughly "limbered up," the owners expect even greater things. A sister boat, the Homestead, is now under construction in Pittsburgh and will be placed in commission during the coming summer or fall.

## Monongahela Turns Down Sunday Closing Ordinance

The electors of Monongahela on a greatest in the First ward, with the referendum vote held on Tuesday, rejected an ordinance recently enacted by the City Commission, which added an additional penalty for violation of the Sunday law. The ordinance carried the town by something over a hundred votes over the supporters of the measure, about two-thirds of the vote of the city being polled. The anti-ordinance strength was

## HELD FOR COURT ON CHARGE OF MAYHEM SCHROEDER PIANO CO. ADDS TO DISPLAY ROOM

Justice Whitehead heard a couple of cases which came to his office from Dunlevy, Tuesday evening, and which involved one charge of mayhem and another of assault and battery. The plaintiff in both cases was Otto Lupori, while the defendants were Emma Lodovitti and her husband Michael.

The charge of mayhem was preferred against Mrs. Lodovitti, who is responsible for a 5-year-old son of Lupori losing an eye last September. From the testimony it appears that the Lupori boy was playing with a spittoon of the defendant, when a dispute arose over a hoop belonging to the defendant committed the act. The defendant threatened to throw some scrub water on the Lupori boy and less he quit quarreling over the hoop and later it is claimed that the defendant committed the act. The defendant contained a strong solution of lye, which got into the eye of the Lupori boy, resulting in its loss. Lodovitti it is said offered to pay the doctor's bill and has already paid some of the amount.

A few days ago when Mr. Lupori went to the Lodovitti home to collect a balance of \$15 a dispute arose in which it is alleged Lodovitti assaulted Lupori and refused to state when he would pay the balance. This latter feature resulted in a charge of assault and battery against Lodovitti, and which was heard last night. After hearing the testimony Justice Whitehead bound Mrs. Lodovitti over to court in the sum of \$500 while he fined her husband \$1 and his costs, from which he appealed to court.

Just previous to this hearing Lupori had been given a hearing before Justice Nutt on a charge of assault and battery preferred by Lodovitti, which resulted in a fine of \$5 and costs being assessed against the defendant, although it was alleged and has one son serving in the army Lupori had gone to the Lodovitti home in France.

The Schroeder Piano company, which has been occupying one of the storerooms in the Stahlman building on Fifth street, has arranged to occupy the entire lower floor, and expects to have the necessary changes made this week, which will give them one of the finest display rooms for musical instruments in the valley. An archway will connect the two rooms, and when this change is made Mr. George B. Day, the manager, proposes to place on display the finest line of pianos and talking machines to be found in western Pennsylvania. A splendid line of records, pianos and piano rolls will also be kept constantly on hand, to accommodate this feature of their constantly growing trade. Mr. Day expects to have the changes made and the new room occupied by Saturday, which will permit them to carry a larger line of musical instruments as well as other features which go with them. Moreover the display will be arranged in a more attractive manner, which will give greater satisfaction to the patrons of the house as well as to the management.

#### P. H. C.

Contest for the Banquet Friday evening closes at the meeting tonight, at which time tickets for those who qualified will be distributed. There will be at least 55 to attend and money cannot purchase a seat at the table.

The Protected Home Circle wishes to inform all candidates that they will save money if examined today besides doing a favor to a friend seeking a seat at the banquet.

## READY-TO-SERVE MAKES THE PUBLIC BEAR THE BURDEN

### SCOTT PLEADS GUILTY TO ASSAULT CHARGE

The case of the commonwealth against Joe Scott, of Bentleyville, charged with felonious assault by Dr. A. N. Booth, of Bentleyville, was called in court at Washington on Monday, when the defendant entered a plea of guilty and was noloed on payment of the costs, which were over \$100. The case had come to trial, promised some sensational testimony.

### People Would Contribute to Pay Income Tax Of Corporations

### OLD METHOD WITH NEW TOUCH

All citizens of the borough are invited by President Schafer of the Business Men's Association to meet at the borough building Thursday evening to discuss the new rates recently announced by the Greensboro Gas Company. If expression of opinions is a criterion there will be a large number in attendance. One citizen of the community in writing the Mail on the present situation says:

Through the medium of your paper, and only through it, can we find recourse in expression of thought in fairness, equality, justice and right. In the days of readjustment (and we hope of lasting peace) comes the time to square up. Our government finds itself "in the hole" eighteen or more billions of dollars and taxes to pay this enormous debt are so levied and adjusted that it looks, on paper, as though the big man or the big concerns were to pay the large amount of it. Now, in all fairness to these concerned, are they doing it?

Are not the beer trust, the oil trust and the tobacco trust and a hundred and one other trusts using the public as a dumping ground, forcing them to pay, here a little and there a little, until finally they have it so nicely proportioned and adjusted that they wash their hands of the whole business and on matters of money words say to the people, "We had nothing to do with the fighting, so refuse to pay the bills." I think the people get a very unequal deal when dealing with this class of birds. Go on down the line and you will find it ever the same.

Getting closer to home we find the same old tactics employed, or will be some time later. The gas company has notified its patrons that beginning with the reading of the meters in April the price of natural gas will be 37 cents per 1000 cubic feet. Natural gas is not as plentiful as in the past, and we must have it, so why kick, but mark the joker, 50 cents for ready to serve.

Under the head of justice this ready-to-serve is not a good mixer. It seems to be out of place; it seems to say to you, "since you are a good sport and make no kick, I will let you down easy. I am now ready to serve you or \$6.00 per year per each meter."

How very generous this low bid on such valuable service, when you think of the small number of meters. I don't suppose there are over 4,000 or (Continued on Page 4)

### INTOLERABLE CONDITIONS

The embarkation camp of the United States at Brest, France, is coming in for an unusually fierce amount of criticism, and it is likely that a Congressional investigation will soon be under way to determine who is responsible for the conditions which have, and which still continue to exist at that point. Returning soldiers who embarked at that point bring back tales of very uncomfortable experiences at that place, which has been designated as "the vilest hole in Europe." The weather there is described as being misty at all times, and quite frequently it is raining. The mud is shoe-top deep and men awaiting embarkation are required to sleep in shelter tents without any means of heating them. A little hay on the bare ground over which they place their "slicker" or gum coat furnishes the bed for the boys, from which they arise in the morning feeling the effects of the dampness which their clothes had absorbed.

The latest critic of conditions at this port is Senator Gore of Oklahoma, who has just returned from France, and who made an investigation of conditions over here. He is going to tell the Senate Committee on Military Affairs what he saw at this encampment and of the conditions that exist there, with a view that the government will at once direct an immediate improvement. The soldiers are putting up with all these discomforts because they are anxious to get home, but that is no reason why the government should allow them to continue. It is evident that some one has been delinquent in his duty, and they should be compelled to feel the heavy hand of punishment for their unfaithfulness.

### THE TOWN MEETING

A "town meeting" has been called by President John P. Schafer of the Business Men's Association, to meet Thursday evening, at which time the proposed advance in rates of the Greensboro Gas Company will be discussed. At this meeting steps will also be taken, if it is deemed advisable, to test the right of the company to impose a ready-to-serve charge on all customers, in addition to the regular rate which is fixed by the company for all gas consumed.

Aside from the questions that may be discussed Thursday evening, a "town meeting" is an institution that has many good points and which should be taken advantage of to a greater extent in these modern days than we are in the habit of doing. In former times the town meeting was an occasion of importance. In many communities, before newspapers were established in those localities, the town meeting served the purpose of disseminating public information, and if reports which have come down to us from those days are correct, these institutions served their purpose well.

At the meeting to be held Thursday evening there will no doubt be an interchange of opinion and likely a decision as to future action. Those present will be able to get the viewpoint of his neighbor, and out of this multiplicity of expression will come concerted action. Although we are living in a modern age, the town meeting is not altogether a back number. It has many useful purposes to serve and is always available for action in very short notice.

### LOYALTY'S LAST LEGS?

American loyalty stood the test of the world war most nobly. Never for an instant was there faltering or hanging back.

Always loyalty stepped into the breach; met every demand.

And now that the victory is won, that triumph and honor is ours, let us trust that loyalty is not on its last legs.

We don't believe, we cannot believe that is so.

For Americans have been patriots since the battle of Lexington. Never have they turned their backs upon the enemy, upon the sacred obligations.

It's too late to begin now. Uncle Sam shortly will ask us to lend him another \$5,000,000,000 that he may appropriately finish the big job he took in hand after the sinking

of the Lusitania. The job that secured democracy, freedom and liberty for the world.

The job that meant perpetuity for American institutions, stability for American government, immunity from German tribute, safety for American womanhood, and protection against Hun invasion.

If loyalty ever faltered, ever hesitated, ever questioned, certainly it must react to this demand.

For after all it is only a matter of dollars.

And dollars, in America are the cheapest commodity.

Fifty thousand American lives were sacrificed in France. Half a million would have paid the price had the war gone on another six months.

Compared to this what is \$5,000,000,000?

Nothing calculated to stagger American loyalty.

Nor will it.

Americans will run true to form.

They will come through.

### MAKING GOOD

While Davis Island dam at the head of navigation on the Ohio river has not the same significance today that it had some years ago, due to the practical suspension of coal shipments to southern ports, yet it is interesting to remark at this time that forty years ago the river coal shippers of Pittsburgh and the Monongahela valley were raising an awful rumpus because the government proposed to build the improvement. However, Davis Island dam has vindicated itself many times over since 1879, and as the pioneer of Ohio river improvements has been the bacon light, so to speak, of the long line of similar improvements which now make so much of the river navigable throughout the entire year. Some day the Ohio will be an improved canal, with a nine-foot stage of water, and will be one of the greatest freight carriers in the world.

Every merchant, every business man every manufacturer, every professional man, is "ready to serve," but do they add an extra charge simply because they are read to oblige the public. It takes a public service corporation with a monopoly of the business in a community to show the people how easily it can be done.

Congress is likely to anticipate President Wilson's expressed wish and begin debate on his proposed League of Nations at once. The draft of the constitution of this new League, which the President bears with him on his way home, will have to undergo considerable inspection before the Senate agrees to approve it.

There appears to be no reason why the embarkation camp at Brest, in France, should be in such a deplorable condition as it is reported to be. Some department of the United States army needs to be gone, after with more than a sharp stick.

The saying that "you can't get something for nothing" is almost as old as modern business itself, but our gas company is proceeding to show us that they can.

### Pictures of Christ

All pictures of Christ now in existence represent the artists' imaginative conceptions, based more or less on Biblical and other descriptions of his personal appearance. The works of Leonardo da Vinci and Raphael are the earliest acceptable ones.

### Mixed

A certain professor was struggling to make clear the point that both parents have an equal influence upon a child. "For," he said gravely, "a man is as much the son of his father as he is the daughter of his mother!"

### One Word Spoils All

Just when a woman begins to be invited out a little by nice people her husband spoils all by referring to the laundress as the washerwoman right out where everybody can hear.—Ohio State Journal.

### Head Down

An Indiana paper tells of a woman "with tears coursing down her brow." Imagination can only picture a trapeze performer doing the weep with her other act.—Boston Transcript.

## Delicate Children Vinol is What They Need

More than eight thousand druggists recommend Vinol because it contains in deliciously palatable form the oldest and most famous reconstructive tonics known to medicine. During the last sixteen years it has brought health and happiness to thousands of puny, ailing, anaemic children.

### HERE IS PROOF

Middletown, Conn. "I used Vinol for my little girl five years old for a run-down, nervous condition. She was thin, irritable all the time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and strength and is much pleasanter."—Mrs. C. B. Wilkinson.

Manville, R.I. "The whooping cough, and later the measles left my little boy of eight years with no appetite, thin, frail, delicate and tired all the time. After everything else had failed Vinol gave him a hearty appetite, restored his strength and he is now as well as ever."—Mrs. James H. Hall.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

## SECOND HIGH WINS OVER MONONGAHELA

Tuesday afternoon the Charleroi high school second team defeated the Monongahela high second team by a score of 18-16. Monongahela led until the last quarter, when the locals piled up nine points to their opponents' one. The team work of the locals in the last quarter was the feature of the game. Woodward, the Monongahela center, played a good game. The lineup and score:

| Charleroi | Monongahela |
|-----------|-------------|
| Watson    | F           |
| Stephens  | F           |
| Burnett   | C           |
| Webster   | G           |
| Savoline  | G           |

Substitutions—Jones for Savoline. Owens for Stephens, Kramer for Meyer. Field goals, Burnett 4, Watson 2, Woodward 2, McGregor 2. Fouls, Watson 5 out of 8, Burnett 1 out of 4, McGregor 8 out of 22. Scorer, Glunt.

## SAY NAVY SHORE DUTY WAS SOLD

A news item from New York says that arrests on charge of bribery and graft in the personnel of the Third Naval district have been made following an investigation ordered by Secretary Daniels. The Secretary is quoted as saying that the investigation indicates "that money was paid for assignments and promotions in the service and discharge from the service."

It is charged there existed a system of bribery of minor officials of the district with particular reference to naval reserve force. The New York Evening Post says it is reported that "approximately \$500,000 was expended in payment for special favors to individuals in the service." Many men, it is declared, were apparently admitted to the navy and the naval reserve in order to escape being drafted into the army.

## JAMISON MADE THE CONGRESS NOMINEE

John M. Jamison of Greensburg, was on Tuesday nominated by the Republicans of the Twenty-second Congressional District, composed of Westmoreland and Butler counties, at a meeting of the conferees held at the William Penn Hotel, Pittsburgh. It required the greater part of the day for the conferees to get together on the nominee, the delegates being far apart during the morning hours. Levi M. Wise of Butler county, was also a candidate for the nomination and his friends were insistent on his selection, their argument being that Butler county had never been once honored with the nominee since the organization of the district. However, in the afternoon both parties got together and 311 Jamison was made the nominee. He has heretofore served in the State and was a most capable representative.

## READY TO SERVE MAKES PUBLIC BEAR BURDEN

Continued from page 1.

perhaps 4,500 in all of Charleroi and our large war debt would soon eat that up in taxes alone.

While I think we should take a patriotic view of this matter and do our bit in paying off this enormous war debt, yet it is right that we should pay the gas man's service charge. How about the garbage man, the milk and the ice man, the news man and many others who serve the public at a much lower rate of profit. I for one will not accuse the gas company of a holdup, but I believe as the old darkey once remarked, "It is downright compellery."

Notice.

We are ready for Truck Body Building and auto repair. Corner First and Lincoln. J. C. Black, Manager. 218-44p

## Money to Loan on First Mortgage.

## Krew-Pina Wards Off Pneumonia

COLDS can't be given attention too quickly in these days when pneumonia is so common. The instant a cold develops, KREW-PINA should be applied on retiring. The first application will break a cold and a second will usually banish it entirely.

KREW-PINA is a wonderful ointment to reduce all inflammation. Splendid for bronchitis, tonsillitis, catarrh, headaches, etc. Kills pain and heals cuts, scrapes and burns; is fine for the many minor ailments that beset the average family.

Drop in at your nearest drug store on your way to or from work or shopping and secure a 25c jar—you will find daily use for it in your home.

## FEEL MISERABLE FROM THAT COLD?

Colds and coughs are quickly relieved by Dr. King's New Discovery

Nobody should feel "perfectly miserable" from a cold, cough or bronchitis attack for very long. For it takes only a little while to relieve it and get back on the road to recovery when Dr. King's New Discovery is faithfully used. It soon loosens the phlegm, relieves irritation, soothes the parched, sore throat, brings comfort.

Half a century old and more popular today than ever. 60c and \$1.20.

**Make Your Bowels Behave**

Make them function with gratifying precision. If regulation of the bowels does not relieve their torpidity, Dr. King's New Life Pills will. They are perfect bowel trainers, cleanse the system surely, comfortably. 25c.

## DEVELOPING & PRINTING

Films developed and printed in 24 to 48 hours.

No advance in prices.

**MATTIE H. KELLEY,**  
211 McKean Ave. Charleroi

## THIS HUN REALIZED GERMANY WAS BEATEN

With the American Army, Anderson, Germany, Feb. 10.—How a German cafe proprietor was forced to abandon the sale of beer to the troops and hells of the village so that he could serve hot chocolate to the American soldiers as they marched by on their way into Germany is one of the stories of the advance of the Thirty-second Division. It happened at Andernach, C. P. Kellman, a Y. M. C. A. secretary attached to the Division, could find no convenient place in the village from which to serve hot chocolate to the men as they tramped by, worn out from their long march. Then he came upon a cafe admirably situated by the roadside. But the Herr Bartender and proprietor at first refused to exchange the joys of drawing deep foamed beer for the milder thrill of pouring hot chocolate for the men in khaki.

"Nem, nem," he remonstrated disdainfully. "It is beer I serve. Heise chokolate—that is a drink for old women."

"I guess you didn't get me," the Y. M. C. A. man told him. "The American soldiers want hot chocolate. And the American soldiers have got to have what they want."

Herr Bartender said no more. Slowly he poured the chocolate made by the Y. M. C. A. man, and with resignation he accepted the small fee that he was permitted to charge. But there was a melancholy and a meditative look in his eyes. It seemed to occur to him for the first time that when a man could be torn from beer pouring thus, it must be that Germany had been beaten in the war!

## Y. M. C. A. FULFILLING AFTER-WAR TASK

The war work of the Y. M. C. A. has been a gigantic task, but the "peace work" is to be even bigger, both in Europe and the United States. If the need of American troops for relaxation and amusement during the period of demobilization is to be met

Figures just compiled by the Eastern Department show that since the armistice was signed "Y" service among soldiers and sailors in New York, New Jersey, Maryland, District of Columbia, Pennsylvania, Delaware, Virginia and West Virginia has made an enormous jump, and with these figures as a basis the Eastern Department has set out to provide more and more service for the troops until the difficult period of readjustment is entirely over.

The month following the armistice the attendance at "Y" buildings in these eight states was 6,314,793, making an increase of 184,025 over the month preceding. In the huts the most spectacular jump was, perhaps, in the amount of money orders sold by the "Y." The increase here was \$558,643.78 over November, and the total was \$742,556.23. In December there were 154 more lectures given under the direction of the "Y" than in November, with a total of 820 during the month, or 205 a week. Library circulation in the huts also was quickened by the armistice: 37,378 more books were given out in December than in November.

Free motion picture exhibitions given by the Y. M. C. A. had their "peak" month in December, when the number of shows was increased by 459, the attendance by 122,467 and the number of feet of film used by 1,988,000. The totals were 2,504 exhibitions, 1,621,465 in attendance and 12,628,000 feet of film used.

Entertainments furnished free to men in uniform in "Y" buildings were attended by 320,944 more men than were those given in November. An additional 176 entertainers were booked at these shows and 281 more shows were staged than during the previous month, making a total of 750 entertainers, 1,851 entertainments and 1,116,094 in attendance.

## Round Robin.

Originally a round robin was a petition or protest signed in such a way that no name headed the list; that is, the signatures were usually placed in circular form. The device is French and the term a corruption of rond (round) and ruban (a ribbon). It was first adopted by the officers of government as a means of making known their grievances.

## To Prevent Rugs Slipping.

There are many devices to prevent rugs from slipping on highly-polished floors. One of the best and also the cheapest is to cut pieces of rough sheathing paper the exact size of the rug and lay it under them. They will not move them. Another way is to sew triangles of corrugated rubber sheeting to the corners of the rugs.

## The Sunflower.

In olden times the name for the sunflower was solisole the sun-follower. The ancient sunflower, or sun-follower, was the marigold; the plants of the present day are of American origin. It sometimes attains a height of 20 feet. It was introduced into Europe in the middle of the sixteenth century.

## It Can't Be Done.

A French professor avers that the greatest wealth of ideas comes to the human brain between two and five o'clock in the morning. Has the learned professor ever been able to hit on one that came sayways near fooling his wife during the wee small hours? Neither have we.—Grit.

## Notice.

Notice is hereby given that the undersigned, Guardian of Victoria Carson, Margery Carson and Nina Carson, minors, will present a petition to the Orphans Court of Washington County, Pennsylvania, at 10 o'clock A. M., Monday, March 10, 1919, for a decree authorizing and approving the private sale to Frank Johosky of all the right, title and interest of the said minors of, in and to a certain tract of land situate in Fallowfield Township, Washington County, Pennsylvania, for the agreed price of \$6681.60, payable \$1681.60 in cash and the balance to be secured by bond and mortgage. The tract of land proposed to be sold is described as follows:

All that certain tract of land situate and being in Fallowfield Township, Washington County, Pennsylvania, described and bounded as follows: Beginning at a locust tree which is in the boundary line between land of Frances Carson and the land here described and is a corner of said lands; thence by said land of Frances Carson S. 75 3-4 degrees E. 73.8 perches to a point; thence S. 1 degree E. 15.83 perches to a point; thence crossing a public road N. 57 1-4 degrees E. 76.85 perches to a point near a white oak tree; thence by land of Jas. Blythe and passing through or close to a white oak tree N. 15 degrees and 25 minutes W. 57.2 perches to an ironwood; thence N. 6 1-2 degrees W. 16.05 perches to a stone; thence by land of Smith Carson N. 7 1-4 degrees E. 59 perches to a stone at the side of the road; thence by land of Jasper Redd N. 79 degrees and 5 minutes W. 12.84 perches to a point; thence N. 76 degrees and 55 minutes W. 9.3 perches; thence N. 74 degrees W. 5 perches to a post; thence N. 75 degrees and 20 minutes W. 35.9 perches to a point; thence N. 76 degrees and 32 minutes W. passing through or close to a white oak tree 40.35 perches to a point 13 feet from a sycamore tree; thence by land of H. J. Redd S. 32 degrees and 40 minutes W. 59.5 perches to a point in Pigeon Creek 30 feet from a sycamore tree; thence along said creek by land of Noah Jones S. 28 degrees and 43 minutes W. 39.43 perches to a point in the creek 27.4 feet from a mark on a rock; thence by land of Frances Carson S. 17 1-4 degrees E. 41.28 perches to the place of beginning, containing 111.36 acres. Excepting and reserving therefrom all the coal of the Pittsburgh or River vein therein or thereunder, together with the usual mining rights and privileges.

At said time and place, any party interested as heir, devisee or intending purchaser may appear and object to such private sale on account of the insufficiency of the price and may offer to give or pay a substantial increase for such property.

Kerfoot W. Daly,  
Guardian.  
Hugh E. Fergus, Attorney.  
F 12 19-26

## Administrator's Notice.

In Re Estate of Elizabeth M. Boltz, Deceased, late of Fallowfield Township.

Letters of administration upon the above estate having been granted to the undersigned, notice is hereby given to those indebted thereto to make immediate payment, and to those having claims or demands to present them for settlement.

John S. Boltz, Administrator  
Charleroi, Pa.  
Hugh E. Fergus, Attorney.

Information will be held in confidence and interview will be arranged when mutually convenient. 216-t6

## TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepper, bismuth, soda, charcoal, castor oil, and other things which do not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic, just try the effect of a little unadorned magnesia—not the ordinary commercial carbonate, citrate, oxide or sulphate, but the pure bicarbonate of magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal. You will see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and "milk" gas, wind, flatulence, heartburn, indigestion, a heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little unadorned magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the unadorned magnesia absorbed immediately cleanses the stomach in any way so that there are no symptoms of bile indigestion.

## NATION IS BEGINNING FINANCIAL RECOVERY

FEDERAL RESERVE BOARD FINDS READJUSTMENT COMING AFTER ABNORMAL WAR CONDITIONS

Washington.—Definite evidences of the beginning of financial recuperation following abnormal war conditions are set forth by the Federal Reserve Board in a review of the February reserve bulletin. These evidences are: Increase of bank balances at financial centers, a tendency toward lower rates for money, lessening of the amount of paper held by Federal Reserve and Member Banks, inflow of gold coin and gold certificates at banks, indicating greater confidence in the financial situation, and lessened demand for money, and decline in the volume of Federal Reserve notes outstanding, demonstrating the elasticity of the Federal Reserve system.

The board deplored evidences of the relaxation of wartime economies, saying that the industries of the United States and other countries would soon need quantities of capital, and that it behooved Americans to continue to be thrifty and pile up reserves of credit.

"The return of active production and consumption is being retarded," the board observed, "by high expenses of production."

## MILLWORKER TELLS THE 1919 VERSION OF BREAD UPON WATERS

"THINK OF ME CLIPPING COUPONS," HE SAYS. "IT DOESN'T SEEM REAL."

**C**AST thy bread upon the waters, for thou shalt find it after many days." Millions of Americans can today testify to the truth of this promise. They have learned that the principle is operative now as well as then. Millions who never had a savings account have been induced by patriotism to save their pennies and their dollars. As a result they now own government securities and belong to the coupon clipping class. A start toward financial independence has almost miraculously come from something that all their lives they have been throwing away. They have learned the possibilities of thrift and are better citizens.

A typical experience was told the other day by a day laborer in a Youngstown manufacturing plant. Here is his story practically in his own words:

"Up to two years ago I didn't have and I never hoped to have a cent saved. With a wife and two kids and a little home to keep up on \$3 a day it didn't look possible."

"That's what I told myself when they began talking about Liberty Bonds and Thrift Stamps. I am patriotic. I wanted to help win the war, but it seemed impossible to stretch our wages beyond the food and clothes and coal. The missus agreed with me, but we kept thinking about it and finally we began to figure. Well, it's a long story and I can't remember it all. It just seemed to happen. First I cut out the Sunday cigar and later the old pipe. Mother gave up a feather she wanted, forgot the movies and cut down on the food trimmings. The kids went barefoot a little longer."

"We plunged and bought a First Liberty Loan Bond and paid for it \$2 a week. We didn't miss a week. I'll never forget the family jubilee when I brought home that beautiful \$50 bond. The youngsters jumped up and down and Ma and I were some proud."

"That was the beginning. The four of us had got the bug. We haven't missed an issue. We now own \$150 worth of those bonds and are paying on our fourth one."

"Think of me clipping coupons! It don't seem real. Of course, we have been in a terrible war, but if it has taught many people how to save as it has us, it has done a wonderful thing. We're going to keep right on and I hope there'll be more bonds and stamps. We sort of need something to force us to save even now and the thought that we are helping Uncle Sam helps push."

### Liberty Loan Levy

Said the Yank to his brother, the Gob: "We've put Hun where he no more can rot. And pillage and kill—I wonder now will The folks at home Finish the Job."

The problems of peace require solution and call upon your loyalty as did the problems of winning the war.

### Madagascar Graphite.

Production of graphite on the island of Madagascar in 1917 was estimated at 25,000 tons and exports amounted to 17,500. Shipments to England totaled 15,000 and those to France 17,322 tons. While direct shipments to the United States have not been permitted, it is understood from consular reports that 8,000 tons reached this country from Marseilles in 1917, and a considerable quantity has also been shipped from that port during the present year, principally through a consortium of French firms which, until now, has controlled the bulk of the output of Madagascar graphite other than that shipped to England. Inasmuch as the French firms belonging to this consortium are represented in Madagascar, it is not unlikely that they will endeavor to control such graphite as may be shipped to the United States direct from the island when restrictions are removed, while it would appear that various independent producers are endeavoring to form direct connections with the American importers.

### Frank Comment.

Martin likes to go next door every Sunday morning and have his Uncle Al read the "funnies" to him. One morning the pictures were particularly alluring and he was deaf to all importunities to get ready for Sunday school. Finally Uncle Al added to Martin's discomfort by urging the benefits of attending Sunday school, offering as an argument that he had attended until eighteen years old. Whereupon Martin cast a withering glance upon him and said: "I don't see where it did you any good."—Chicago American.

Great interest has been aroused by the announcement that a professor in one of the Japanese universities had invented a successful incombustible substitute for celluloid, to be manufactured from soya bean cake.

The new product has been given the trade name of "Saratite," derived from the name of the inventor, Prof. S. Sato, and a company for its manufacture has been started with a capital of 2,000,000 yen (\$1,000,000).

Saratite is described as a galalith made of the glucine of soya bean, coagulated by formalin.

### MENACE TO CAUCASIAN RACE

Practice of Polygamy in the Orient Constitutes Peril Which Must Not Be Underestimated.

The storm center of social reform in Asia for the next quarter of a century is likely to be over the relations of the sexes, writes Tyler Dennett in Asia. If any statement of the menace of polygamy were necessary to bring home to American readers the immediacy of the subject, some recent statements from the editorial columns of the Far Eastern Review would seem to be suitable. The Caucasian population of the world is doubling its number once in a hundred years; the dark-skinned races, which now outnumber the white population two to one, are doubling their numbers every twenty-five years.

At least such is the case in Korea, where the most recent figures are available. The editor of the Far Eastern Review figures out that at the present rate of increase the Caucasian element in the world's population will have shrunk in a hundred years to scarcely 5 per cent. The oriental demands male children, as many of them as he can produce. The editorial in question says: "So long as the oriental man is able to arrogate to himself the right to possess plural wives, just so long will polygamy prevail. But there is a way out and one which is becoming broader and more easy to tread each year. The wife with foreign education is a precious thing in China in the eyes of the returned students, since she is one of a few women of his own race that realizes and understands his peculiar aspirations. She has it in her hands to be the one and only wife, and if the few examples that have come under the writer's notice are any criterion, she will exert that power to the utmost."

### Mortified.

"What is the matter with your old cat?" She looks disconsolate these days. "Pap hurt her feelings dreadfully. Brings home a mouse trap last week. I told him not to do it. Cats has got their 'felin's' same as anybody else."—Louisville Courier-Journal.

### A Flax "Hurry-Up."

A machine has been invented by a Scotchman that prepares flax for manufacture within a few hours after it has been pulled from the ground instead of taking days, or even weeks, as usual.

### All There Is to It.

Philosophers make a great deal of the mystery of life, but when you've got it all summed up, it turns out to be nothing but an opportunity to be a friend to somebody else.

### Great and Small Minds.

If you would stand well with a great mind leave him with a favorable impression of yourself; if with a little mind, leave him with a favorable opinion of himself.—Coleridge.

### Impossible.

Hub—"I don't believe in parading my virtues." Wife—"You couldn't, anyway. It takes quite a number to make a parade."—Boston Transcript.

### Prevents Cracking.

When pouring boiling milk or water in a tumbler or glass dish stand the tumbler or glass on a knife and the glass will neither break or crack.

### Power of Sympathy.

There is a wonderful power in sympathy to open and display the hidden richness of a man's own seemingly narrow life.—Phillips Brooks.

### The Way Out.

If a man or a machine is unable to accomplish a task it should be turned over to a woman and a hairpin.—London Answers.

### Rubber in Auto Tires.

The American automobile public calls for 50,000 tons of India rubber for the manufacture of its tires each year.

### Daily Thought.

A bad ending follows a bad beginning.—Euripides.

### TO ADD STRENGTH TO COTTON

Machine Devised by New Jersey Man Is Something for Which the World Has Been Looking.

There is probably no service which suffers cotton fabric to so severe a test as that it has to endure in an automobile tire, says Scientific American. The fabric serves as a reinforcement for the rubber. It is designed to withstand an enormous tensile strength in all directions, imposed by steady pressure of air within the tire, and must also withstand the sudden shocks due to the passage of the wheel over obstructions. At the same time it must be perfectly flexible; for it is flexed constantly as the wheel runs over the ground. The fabric cannot have its strength increased merely by using heavier threads, for this would interfere with its flexibility. It has occurred to an inventor, William G. Trautvetter of Paterson, N. J., that a fabric might be designed in which, in addition to the regular warp and filling, diagonal reinforcing threads might be incorporated. And, starting out with this idea, he has designed a machine which will actually weave such a fabric. Anyone accustomed to handling looms or familiar with the operation of these machines will realize how revolutionary must be a mechanism which will put bias threads into a woven fabric.

### Spasmodic Sermon.

When a rich man departs this life without leaving a good will there isn't much peace on earth among the remaining heirs.

### Reason in Their Fall.

Institutions may crumble and governments fall, but it is only that they may renew a better youth.—George Bancroft.

### Optimistic Thought.

Age is venerable in a man—and would be in a woman if she ever became old.

### Finds It Out, Afterward.

If a young man is really in love, he never says he can't afford to marry.
